Let CMU help you get moving!

.....

We are writing to let you know about a research opportunity being conducted by a group of researchers at Carnegie Mellon University (CMU). The study is offering free Uber rides to eligible women. If you are eligible and decide to participate, these free Uber rides may be helpful for you and your family. And the results of this study may help Allegheny County develop better transportation solutions for working families with children.

The study has been approved by CMU as well as by DHS. Your participation is completely voluntary, and your decision to participate will not in any way affect the services you may be receiving through OHS. If you would prefer not to be contacted about this research again, please email: [dhs-research@alleghenycounty.us](mailto:dhs-research@alleghenycounty.us)

Thank you for considering this opportunity.

Sincerely,  
Allegheny County Department of Human Services
